### Education

---

- DBA
- MBA
- BAEd

### Professional Experience

---

My name is Dr. John Elmér. I live in Federal Way, Washington. I am married, and have 3 children, all grown.

I have more than 20 years of experience in business management – working with different organizations on a variety of projects such as leadership development, management, and employee training. I have been fortunate to work for a variety of companies such as Boeing, General Motors, Microsoft, T-Mobile and Nintendo, as well as several smaller companies here in the Northwest.

I have a Bachelor's degree in Education, a MBA with a concentration in leadership and a DBA with a concentration in knowledge management. I have been teaching classes for the CityU School of Management for the last 4 years.
