Education

- PhD Psychology Northcentral University
- MA Applied Psychology Golden Gate University

Professional Experience

The focus of Scott's current research is the application of learning analytics to facilitate adult learning success in adult learning environments.

Most recently he has served as provost and chief academic officer and has overseen schools of Behavioral and Health Sciences, Business and Technology Management, the School Education, Marriage and Family Sciences, and Psychology.

He has a background in educational and social policy research concentrating on online education, higher education policy, program development, student retention, substance use prevention and treatment, child welfare policy, juvenile justice, and cost study applications.

Scott has also worked in for-profit, nonprofit, and governmental organizations overseeing student mentoring and faculty training, and facilitating institution-level outcomes.
