### Professional Experience

---

Steve is a frequent career changer who has evolved into having a career which is in sync with his love of kids and teaching and learning. Past jobs include trial lawyer, creator and teacher of a literature-based mock trial program (kidLAW), school board member (Seattle), high school teacher, and school administrator. In addition to his role as Department Chair, Steve serves as lead faculty for the Performance-Based MIT and the Alternative Routes Programs. Steve and his wife have two daughters in their late twenties, who live 2500-7000 miles away in obvious homage to their habit of traveling a lot. Among other things, Steve like to read, cook, play soccer and ump girls' fastpitch.
